INTRODUCING

FOQO

VINTAGE CAMERA-INSPIRED WIRELESS BACKLIT MECHANICAL KEYBOARD

FOQO STORY

The FOQO is AZIO's ultimate keyboard for professionals, creatives, and artists alike. The name FOQO is derived from the word "focal" for two purposes: a design inspired by cameras and their lenses, and the ability to focalize your workflow in one place.

Revolutionize the way you work with the unique Control Knob: a control center that navigates your media and backlight, and a macro mode that allows users to program its 5 buttons. The FOQO makes work convenient with full compatibility with Mac and PC and connection with Bluetooth or USB. Type in confidence knowing each material is crafted for durability, and each function is made to improve efficiency.

FEATURES

Vintage Camera-Inspired

Inspired by vintage range finder cameras, the FOQO streamlines many of its features while maintaining a premium, sleek appearance.

Reliable Mechanical Switches

Gateron Brown mechanical switches are smooth and tactile, and provide a satisfying haptic feedback with a 50 million actuation lifespan.

Durable Textured Body

Similar to cameras, the body is crafted with an in-mold leather texture for remarkable durability.

Mac & PC Compatibility

With a click of a key, switch between Mac & PC operating systems in a flash.

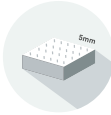

Humongous Battery Life

Equipped with a large capacity 4,000 mAh rechargeable lithium-ion battery.

Streamlining Control Knob

3 Control Knob Modes: Multimedia, Backlight, and Macros. Program your favorite shortcuts to any of the 5 buttons on the control knob.

Dual Aluminum Plate Structure

With a stunning bead-blasted anodized surface finish, durability is further improved with a dual aluminum plate structure.

RGB LED Backlight

The FOQO keyboard offers 9 LED colors and 4 RGB light modes for mesmerizing backlight visuals.

Bluetooth & USB Interface

Choose to connect to any device via wired USB or Bluetooth. In Bluetooth mode, connect up to 3 devices at a time.

USB Type-C Charging

The FOQO keyboard is equipped with a braided USB Type-C cable for quick charging.

DIMENSIONS

Dimension	320 x 158 x 48.5 mm
